BUDGET MESSAGE

Proposed Budget Fiscal Year 2020-21

July 21, 2020

Honorable Mayor, City Council Members, and Residents of Seabrook:

BUDGET OVERVIEW

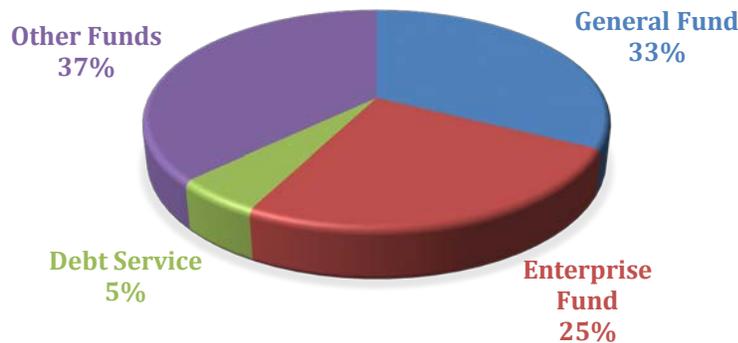

Pursuant to Section 5.03 of the City Charter, I respectfully submit to you the proposed balanced budget for fiscal year 2020-21 (FY 21). The proposed budget is a commitment to maintaining the level of service and core community priorities such as public infrastructure and beautification and public safety. The implementation of Senate Bill 2 (SB 2) and the Coronavirus pandemic are two new items imposed this budget process. However, the budget as presented is balanced and meets the requirements set forth in the City Charter.

The objective used in developing these budgets were to submit balanced budgets to the City Council; to do the best job possible of maintaining current excellent levels of service to the community; and implement initiatives from the Strategic Plan. For our municipality, the pandemic did not negatively impact sales tax revenues and slight increases are recognized in the projection for FY 21 based on actual trend of months impacted by partial and complete shut down by the Governor.

Included within the comprehensive budget, there are a number of special revenue funds and capital project funds that have expenditures that are associated to a capital improvement project within the Capital Improvements Plan (CIP). This updated plan was presented on July 7, 2020, before City Council. The proposed participating projects this year do not include proposing any new debt. With FY 20 approval, three (3) 50% match with Harris County drainage projects resulted in the issuance of Certificates of Obligation that were funded in 2020.

PROPOSED FY 2020-21 BUDGET BY FUND

TOTAL \$41,344,027

STRATEGIC PLAN

This year City Council and staff met by a teleconference due to COVID-19 to discuss updates to the existing Strategic Plan. With the session on June 30, 2020, the existing Focus Areas were refined and no additional Focus Areas were added.

Vision: *Seabrook is a sustainable, energetic and beautiful coastal community that embraces environmental stewardship, fosters safe neighborhoods and promotes tourism and economic diversity.*

Mission: *The City of Seabrook is responsive, innovative and fiscally sound in delivering services that preserve, protect and enhance quality of life.*

PRIORITY GOALS

The planning session reviewed and added to previous SWOT exercises noting that the city benefits from a strong residential base, which helps mitigate the effects of economic fluctuations of not only the pandemic but corridor construction. However, with sales tax the second largest revenue to general fund, it is high priority to plan for a sustainable future with the business loss in the SH 146 corridor. While not comprehensive, below are a few of the highlights from the revised plan for FY 21.

- **Infrastructure and Beautification**

It continues to be a guiding principle in the budget and capital planning process to have the city be a leader in supporting local and regional planning that benefits the residents of Seabrook in transportation and other infrastructure. Projects that look out for the citizens' well-being and safety is a priority in formulating the long range plans. The Capital Improvement Program (CIP) indicates the allocation of resources to maintain and plan properly for those future needs.

- **Public Safety**

The programs and budgetary insight on Public Safety is to ensure that the community is provided with the appropriate resources to continually improve safety and security throughout the community

- **Economic Growth**

The economic development strategies developed both through the city's Strategic Plan coupled with the annual plan for the Seabrook Economic Development Corporation strive to reflect the diversity, values, interests and desires of the local economy and balance it with the quality of life for its citizenry.

- **City Services**

With the majority of the General Fund and Enterprise Fund comprised of personnel costs, the strategies are proposed to support the driving force that serves the city and the community.

- **Engage and Inform Public**

The goals and programs continue to be formulated to inform and engage citizens, businesses and visitors by providing and responding with timely, reliable and accurate information.

REVENUE PROJECTIONS

Ad Valorem

With anticipated new values, an increase of \$300,000 or 5.4% in the Ad Valorem revenue is reflected. The city does not usually see the final tax roll until late July. Therefore, this assumption is based on issued certificates of occupancy and corresponding Harris County Appraisal information currently available.

Sales Tax

Trend data through pandemic and before support an increase projection within Sales Tax. The proposed budget has a 5.3% increase of \$102,260. Three year prior actuals have also trended higher than FY 20 budget.

Court Receipts

An increase of 20% in Court Receipts of \$79,906 is within the proposed budget based on FY 19 and projected FY 20 actuals. Municipal Court sustained receipts throughout the pandemic and adapted quickly to virtual business model. Citations decreases due to the pandemic is anticipated, but full projected year for FY 21 appears to level and support the increase.

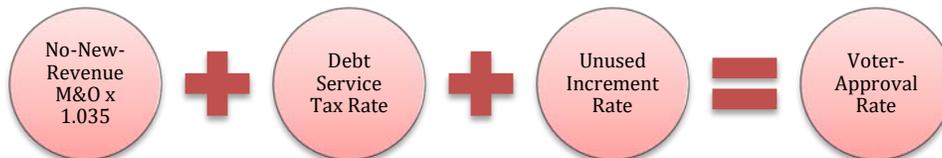

The City of Seabrook budget document is prepared in accordance with best practices established by the Government Finance Officers Association (GFOA) to receive their Distinguished Budget Presentation Award. The city's budget document has received this award for the past several decades.

PROPERTY TAX RATE

The tax rate for FY 21 is proposed at .551983 per \$100 valuation, remaining the same from the prior fiscal year for this draft. This rate is the new "No-New-Revenue Tax Rate" (Previously called Effective Tax Rate) based on the existing properties and the valuation.

The tax rate is comprised of two components, the Maintenance and Operations rate (M&O) and the Debt rate. Additionally, the term "Voter-Approval Tax Rate" (Previously called Rollback Tax Rate) changed for the rate requirement that the city would have to hold an election to approve a rate exceeding the Voter-Approval Tax Rate.

The "Unused Increment Rate" is a rate that can be used to increase the Voter-Approval Rate, depending upon the tax rates adopted by the city in the previous three (3) years. The city would be able to "bank" any unused amounts below the 3.5% "Voter-Approval Rate".

GRANTS AND PUBLIC ASSISTANCE

Texas Parks and Wildlife Department (TPWD) Grant

During FY 20, the city received notification of an award of \$131,400 for the trail extension on the North Area berm. The project is in environmental reviews and revenue is expected to be received in the FY 21 with corresponding reimbursed expenses within the Parks Department.

Public Assistance FEMA

For FY 21, the city will have a Public Assistance application filed for COVID-19 related expenses. At the time of this presentation, the actual incurred expenses are approximately \$47,000. Relief funding for the federal declared disaster will be eligible through December, 2020.

CARES Act / Coronavirus Relief Fund (CRF)

Harris County received a direct allocation of \$426 million from the CARES Act. The County established a Small City Assistance Program in July, 2020, with a maximum allocation of \$55 per capita for each small city. The city will have to work with Harris County in the upcoming fiscal year to apply for funds based on eligible reimbursements after application through FEMA Public Assistance Program for 75% reimbursement.

Hazard Mitigation Grant Program (HMGP)

The city has made a formal application for the Retrofit of the Wastewater Treatment Plant to the Pine Gully location behind the Public Works facility. The city will have approximately \$8,000,000 contribution responsibility. As part of the Capital Improvement Program (CIP), the city was on track to begin a Phase 1A of the relocation of the plant and resources of \$4,400,000 had been approved and restricted. If the city is approved for the grant, the remaining portion of the local match will be a possible item for electors in May 2020 election.

GENERAL FUND

The city's top priority is to preserve and enhance the high quality of life Seabrook residents have come to expect. The cost of providing and maintaining services to the residents increases each year. Maintaining service levels can be challenging as the city grows and manages the large mobility changes impacting the city. The General Fund services are people oriented and personnel costs comprise 70% of the total operating budget. Increases proposed are just over 3% and primarily attributable to reinvesting in our employees through the below listed items.

Compensation and Personnel

The city's Compensation Program is based on maintaining compensation at least of market of competitor employers, the establishment and maintenance of a salary ranges in a Step Pay Plan comprised of Pay Grades with placement within plan evaluated off of job descriptions and duties. The Step Plan is included within the proposed balanced budget and equates to a 2.5% on an employee's anniversary date. Personnel Services in total increased by 3.2% total including benefits.

Personnel Changes

Public Safety (General Fund) – Department 200

No new positions are proposed. One existing position is reallocated to a 50/50 split Police Officer position funded for a **Bailiff and Community Relations** position. Funded equally by Public Safety and Municipal Court, this position will serve in Municipal Court during court and out of court for other services with the remaining half of duties assigned to general patrol assignment.

Emergency Services and Emergency Management (General Fund) – Department 106

During FY 20 a new position of **Deputy Fire Marshal** was approved. In February 2020, the position was changed to reflect the additional duties to create the new job description of **Deputy Fire Marshal/Assistant Emergency Management Coordinator**. The proposed budget for FY 21 includes a reclassification adjustment based on job description changes. Because the position serves in both capacities, the funding for the position is split 50/50 between Emergency Services Department and Emergency Management Department.

Municipal Court (General Fund) - Department 700

The Court Administrator position is proposed for a reclassification to **Director of Court Services** as submitted by the Municipal Judge.

Benefits

Medical, Dental, Vision, Life and AD&D, and EAP

For the benefit plan year August 1, 2020 through July 31, 2021, the city's medical, dental and life and disability programs did not have to be rebid. The Vision and EAP policies are in a rate guarantee period until August 21, 2021. With the renewals, the medical and dental had 0% increase. The renewal on the life and disability reflects a 14% increase and equates to approximately a \$3,516 increase across all funds.

Education/Certification Incentives

The proposed budget incorporates changes to the city's Education and Certification Pay Policy. The changes include for purposes of this budget amending certain Directors under the City Manager to include a base pay that now includes any previous education/certification paid separately. Moving forward, director level positions that require certain minimum education/certification requirements in their job description will not have a separate education incentive if a minimum per their job description. The combined base rate will enable future compensation studies to readily compare base pay with other cities fairly and equitably.

Workers' Compensation

The city's workers' compensation insurance is administered by the Texas Municipal League Intergovernmental Risk Pool (TML-IRP). TML-IRP is responsible for investigating, determine compensability, and performing various functions related to handling an employee's claim. Each year a rerate is for the classification codes of each industrial function along with a modifier based on previous experience in claims. Both risk pool changes and agency modifier are then applied to new payroll budget for new fiscal to calculate proposed amount within the Personnel section of departmental budgets. This year increases were reflected in Sewage Treatment & Collection with decreases in Streets, Ambulance, Waterworks, Parks, and Clerical.

FIRE AND EMERGENCY MEDICAL SERVICES

The city continues to be committed to providing first class service to our citizens through our contract with the Seabrook Volunteer Fire Department (SVFD). The city is currently on a month to month contract with SVFD and planning goal is to meet and finalize a new contract within FY 21. This proposed budget reflects the annual contract amount with the SVFD under the Department 230 – Emergency Services (Fire) line item 230-5235. The proposed full contract amount with SVFD reflects a -.34% decrease with the overall Seabrook decrease at -.50% from previous fiscal. Overall drivers are -24% decrease in Gas & Oil, -24% in Paid Administrator, +3% in Repairs and Maintenance, +13% in Firefighting Supplies, and 8% increase in Retirement.

The structure of the budget continues with a percentage split of 88% Seabrook and 12% El Lago with each line item within the contract budget classified as one of the following: 1) Seabrook Only (100%); 2) Consumable (88%/12% Split); and 3) Organizational (50%/50% Split).

HOTEL OCCUPANCY TAX FUND

The Hotel Occupancy Tax Fund took significant reductions based on the pandemic effects in FY 20. The estimated revenue for FY 21 in the proposed budget was reduced based on projected effects and ongoing trend in occupancy rates from the pandemic.

With the City Council action on July 7, 2020, the events approved did reflect decreases based on the COVID-19 impacts in the special fund. The city’s event, Seabrook Celebration, due to COVID-19 and pre-planning requirements was cancelled altogether for October 2020; therefore FY 21 does not include that additional event funding. However, the revenue projections assumed require FY 21 to supplement with the fund balance.

This fund has 1.2 FTE budgeted and no positions were changed or eliminated, but other budgetary decreases were made in FY 20 and in the Proposed FY 21 to account for the revenue fall.

ENTERPRISE FUND

The proposed proprietary funds (utilities) budget reflects revenues based upon water and sewer rates from the recently approved Seabrook 2019-20 Utility Rate Study that was approved on June 30, 2020 by City Council. The Master Fee schedule will be updated in the annual update to City Council. A Proposed New Agreement with the City of Pasadena is awaiting final approval from Pasadena’s counsel and is anticipated to be brought before the Pasadena City Council for consideration before the end of 2020.

Over the past five years incremental rate increases per the 2014 Plan were implemented at an overall average of 5.17% annually in preparation for an anticipated rate increase on the renegotiated contract before the expiration in 2028.

With the City Council approval of the 2019-20 Utility Rate Study on June 30, 2020, the following rate increase was approved. All following fiscal years increase is subject to change an annual recalculation based on actual O&M and Capital costs.

Water

22.35% Increase to Base Water Rate
17.00% Increase to Volumetric Water Rate

Wastewater

6.25% Increase to Base Wastewater Rate
17.00% Increase to Volumetric Wastewater Rate

CAPITAL IMPROVEMENT PROGRAM (CIP)

The FY 21 proposed budget continues identifying more funding options for high priority capital projects. Fund 28 was created in FY 2018 for the establishment of funding capital improvements, equipment, facilities or any other project within the CIP. The fund is a comprehensive fund allowing for monies to be accepted from the General Fund, Enterprise Fund, Grants or Special Funds.

Proposed Projects Include:

W7 – SH 146 Water Line Relocations	State Infrastructure Bank and Enterprise Impact Fees
W11 – Friendship Park Water Tank Rehab	Enterprise Fund

Thank You,

Gayle Cook

BACKGROUND

History

In 1832, Ritson Morris, a native of Virginia, obtained a league of land from the Mexican government. A portion of that land was purchased by Seabrook W. Sydnor in 1895 and a plat of the area was filed with the Harris County Courthouse the following year. In March 1903, the Seabrook Company of Houston filed a revised layout of the proposed Seabrook Town. The new town appealed to local farmers, fishermen and merchants and even a few seasonal residents.

The town grew incrementally through the first half of the twentieth century and was characterized by its sleepy, contented existence. Tragedy struck in 1961 when Hurricane Carla damaged or destroyed most of the structures in Seabrook. Residents slowly rebuilt the town, spurred on by the news of the federal government's plans for the Manned Space Flight Center.

Fearing annexation by the bordering cities of Houston or La Porte, the City of Seabrook was incorporated on October 23, 1961 as a general law city. By 1965, the population had doubled to 3,500 and the local marinas began to flourish with the rising popularity of Clear Lake. During the 1970's, large areas of single-family development were platted. On August 11, 1979 the citizens of Seabrook voted and approved a home rule charter. This charter adopted the Council-City Manager form of government. By 1980, the population of Seabrook had grown to 4,670. During the eighties, apartments were platted and constructed and as a result, by 1990 the number of city inhabitants had grown to 6,685. Many more apartments and single-family homes were constructed throughout the 1990's increasing the population to 9,443 by the year 2000. The most recent census in 2010 showed the population of Seabrook had increased to 11,952.

Location

Seabrook is part of Harris County and is located in the Clear Lake area which is approximately 25 miles southeast of Houston. The city is surrounded by Galveston Bay to the east, Clear Lake to the south, the cities of El Lago and Taylor Lake Village to the west, and in the north Seabrook's city limits end at the City of Pasadena's border. In addition to Seabrook, Clear Lake's northern shore is outlined by the communities of El Lago, Nassau Bay, Taylor Lake Village and Webster. The city limits of Seabrook contain 3,648 acres with 10.75 miles of shoreline. More than 50 percent of the city is water.

AN ORDINANCE FIXING AND LEVYING MUNICIPAL AD VALOREM TAXES FOR THE CITY OF SEABROOK, TEXAS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, **2021** AND DIRECTING THE ASSESSMENT AND COLLECTION THEREOF.

WHEREAS, Section 26.05 (a) of the Tax Code requires the property tax rate be approved separately in two components: (1) Maintenance and Operations; and (2) Debt Service; and

WHEREAS, Section 26.05 (b) of the Tax Code requires that the vote on the ordinance setting a tax rate that exceeds the no-new-revenue tax rate must be a record vote; and

“I move that the property tax rate be increased with the adoption of a tax rate of \$ **0.543613**, which is effectively a **3.44** % percent increase in the tax rate”; and

WHEREAS the City Council of the City of Seabrook finds that the tax for the year **2020** hereinafter levied for current expenses of the city and the general improvement of the city and its property is in all respects necessary and must be levied to provide the revenue requirements of its budget for the ensuing year; and

WHEREAS, Section 26.05 (b) of the Tax Code further requires that if the ordinance sets a tax rate that, if applied to the total taxable value, will impose an amount of taxes to fund maintenance and operation expenditures of the taxing unit that exceeds the amount of taxes imposed for that purpose in the preceding year, the taxing unit must include in the ordinance in type larger than the type used in any other portion of the ordinance the following statement:

"THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE"; and

if the tax rate exceeds the no-new-revenue maintenance and operations rate, the following statement:

“THE TAX RATE WILL EFFECTIVELY BE RAISED BY 3.50% PERCENT AND WILL RAISE TAXES FOR MAINTENANCE AND OPERATIONS ON A \$100,000 HOME BY APPROXIMATELY -\$3.29.”

City of Seabrook Investment Policy

1. *POLICY*

It is the policy of the City of Seabrook (the “City”) to invest public funds in a manner which will preserve the principal and maintain liquidity through limitations and diversification seeking the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statutes governing the investment of public funds.

2. *PURPOSE*

The purpose of this investment policy is to comply with all the statutes governing the investment of the City’s funds and Chapter 2256 of the Government Code (“Public Funds Investment Act”) which requires the City to adopt a written investment policy regarding the investment of its funds and funds under its control. The policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the City’s funds.

3. *SCOPE*

This investment policy applies to all financial assets of the City of Seabrook. These funds are accounted for in the City of Seabrook’s Comprehensive Annual Financial Report and include:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Enterprise Funds
- Debt Service Fund
- Any new fund created by the City, unless specifically exempted from this Policy by the City Council or by law.

The City may consolidate cash balances from various funds to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

4. *INVESTMENT STRATEGY BY FUND TYPE*

- **Operating Funds:** Operating funds will have as their primary objective to assure that anticipated daily cash requirements are matched with adequate investment liquidity. The secondary objective is to create a portfolio that will minimize volatility during changing economic cycles. There should also be a marketability of the investment if the need arises to liquidate the investment before maturity.
- **Debt Service Funds:** Investment strategies for debt service funds shall have as their primary objective the assurance of investment liquidity adequate to cover the debt service obligation on the required payment date. Securities purchased shall not have a stated final maturity which exceeds the debt service payment date or funds shall be maintained in an investment pool to be available for debt service payments.

- **Capital Project and Special Purpose Funds:** These funds will have as their primary objective to assure that anticipated cash outflows are matched with adequate investment liquidity. These portfolios should have liquid securities to allow for unanticipated project expenditures or accelerated project outlays due to a better than expected or changed construction schedule. The stated final maturity dates of securities held should not exceed the estimated project completion date.

5. *PRUDENCE*

Investments shall be made with judgment and care-under circumstances then prevailing-which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable income to be derived.

- The standard of prudence to be used by investment officials shall be the “Prudent person” standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security’s credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.
- The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific investment’s credit risk or market price changes, provided that these deviations are reported immediately and the appropriate action is taken to control adverse developments.

6. *OBJECTIVE*

The primary objectives, in priority order of the City of Seabrook’s investment activities shall be:

- **Safety:** Safety of principal is the foremost objective of the investment program. Investments of the City of Seabrook shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.
- **Liquidity:** The City of Seabrook’s investment portfolio will remain sufficiently liquid to enable the City of Seabrook to meet all operating requirements which might be reasonably anticipated.
- **Public Trust:** All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment Officials shall avoid any transaction that might impair public confidence in the City's ability to govern effectively. The governing body recognizes that in a diversified portfolio, occasional measured losses due to market volatility are inevitable, and must be considered within the context of the overall portfolio's investment return, provided that adequate diversification has been implemented.

- **Return of Investment:** The City of Seabrook's investment portfolio shall be designed with the objective of attaining a rate of return throughout the budgetary and economic cycles, commensurate with the City of Seabrook's investment risk constraints and the cash flow characteristics of the portfolio.

7. *DELEGATION OF AUTHORITY*

Authority to manage the City of Seabrook's investment program is derived from the following: Ordinances, Resolutions and other acts of Council. Management responsibility for the investment program is hereby delegated to the Investment Officer, who shall establish written procedures for the operation of the investment program consistent with this policy.

8. *TRAINING*

Investment Officers shall attend at least one investment training session within 12 months after taking office or assuming duties, and shall attend an investment training session not less than once in a two-year period and receive not less than 8 hours of instruction relating to investment responsibilities from an independent source to insure the quality and capability of investment management in compliance with Public Funds Investment Act. For the purposes of this policy, an "independent source" is defined as a professional organization, an institute of higher learning or any other sponsor other than a Business Organization with whom the City may engage in investment transactions. Independent sources that may provide investment training include the Government Treasurer's Organization of Texas, the University of North Texas, the Government Finance Officers Association of Texas, or the Texas Municipal League. Training shall be in accordance with the Public Funds Investment Act and shall include education in investment controls, security risks, market risks, and compliance with statutes governing the investment of public funds. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Investment Officer. The Investment Officer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials. The Finance Director is the designated Investment Officer.

9. *ETHICS AND CONFLICTS OF INTEREST*

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Council any material financial interests in financial institutions that conduct business within this jurisdiction, and they shall further disclose any large personal financial or investment positions that could be related to the performance of the City of Seabrook, particularly with regard to the time of purchases and sales.

10. *AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS*

The Finance Officer will maintain a list of financial institutions authorized to provide investment services. In addition, a list will also be maintained of approved security broker/dealers selected by credit worthiness who are authorized by the State of Texas. They may include "primary" dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (uniform net capital rule). No public deposit shall be made except in a qualified public depository as established by state laws.

In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest.

16. DIVERSIFICATION

The City of Seabrook will diversify its investments by security type and institution. With the exception of U.S. Treasury securities and authorized pools, no more than 50% of the City’s total investment portfolio will be invested in a single security type or with a single financial institution. The City may invest up to 100% of its investment portfolio in U.S. Treasury securities, CD’s and authorized investment pools.

17. MAXIMUM MATURITIES

To the extent possible, the City of Seabrook will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in securities maturing more than two (2) years from the date of purchase. However, the City may collateralize its repurchase agreements using longer dated investments not to exceed five (5) years to maturity.

Reserve funds may be invested in securities exceeding two (2) years if the maturity of such investments is made to coincide as nearly as practicable with the expected use of the funds.

18. INTERNAL CONTROL

The Finance Officer shall establish an annual process of independent review by an external auditor. This review will provide internal control by assuring compliance with policies and procedures. The controls shall be designed to prevent losses of public funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees or Investment Officers of the City. POLICIES AND PROCEDURES

The following budget policies and procedures have been adopted by the City of Seabrook.

OPERATING BUDGET POLICIES

1. The city will pay for all current expenditures with current revenues and available cash reserves. The city will avoid budgetary procedures which would result in current expenditures being paid at the expense of future years, such as postponing expenditures, accruing future years' revenues, or rolling over short-term debt.
2. The budget will provide for adequate maintenance of capital plant and equipment and for their orderly replacement.
3. The city will maintain a budgetary control system to assure adherence to the budget.
4. The City Manager will prepare monthly reports comparing actual revenues and expenditures to budgeted amounts.
5. Each year, the city will update expenditure projections for the next five years. Projections will include estimated operating costs of future capital improvements that are included in the capital budget.

REVENUE POLICIES

1. The city will maintain a diversified and stable revenue system to shelter it from short-run fluctuations in a single revenue source.
2. The city will estimate its annual revenues by an objective, analytical process.
3. The city will project revenues for the next five years and will update this projection annually. Each existing and potential revenue source will be reexamined annually.
4. The city will follow an aggressive policy of collecting property tax revenues. The annual level of uncollected property taxes will generally not exceed 8 percent.
5. The city will establish all user charges and fees at a level related to the cost of providing the services.
6. Each year, the city will recalculate the full costs of activities supported by user fees to identify the impact of inflation and other cost increases.
7. The city will revise user fees annually to adjust for the effects of inflation.
8. The city will set fees and user charges for the Enterprise Fund such as water, sewer, or sanitation at a level that fully supports the total direct and indirect cost of the activity. Indirect cost includes annual depreciation of capital assets.
9. The city will set fees for other user activities, such as recreational services, at a level to support 50 percent of the direct and indirect cost of the activity.

RESERVE AND FUND BALANCE POLICIES

1. The city will maintain a fund balance of 25% of the current budget in the General Fund and 15% of the current budget in the Enterprise Fund.
2. The fund balances will provide for the following:
 - Temporary funding of unforeseen needs of an emergency or non-recurring nature as provided for in Charter Section 5.05 "Emergency Appropriations".
 - Permit orderly budgetary adjustments when revenues are lost through the action of other governmental bodies.
 - Provide a local match for public or private grants.
 - Meet unexpected small increases in service delivery costs.

3. The city will establish an equipment reserve fund and will appropriate funds to it annually to provide for timely replacement of equipment. The amount will be calculated annually in the capital budget.

ACCOUNTING, AUDITING AND FINANCIAL REPORTING POLICIES

MODIFIED ACCRUAL BASIS OF ACCOUNTING

The modified accrual basis of accounting is followed in the governmental fund types. Under this basis of accounting, revenues are recognized when they become susceptible to accrual, i.e. both measurable and available to finance expenditures of the current period. Available means then due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Expenditures generally are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payment to be made early in the following year.

The treatment of specific revenue and expenditure items is described below:

1. General property taxes receivable are recorded on the date levied and as revenue when they become available. Property taxes receivable have been recorded as deferred revenues at September 30th. Property taxes collected within 60 days subsequent to September 30th have not been recorded as the amount is not considered material.
2. Franchise taxes, sales taxes, licenses and permits, and fines are not susceptible to accrual since they are not measurable until received.
3. Federal and state grants are recorded when due. Revenues on cost-reimbursement grants are accrued when the related expenditures are incurred.
4. Interest is recorded when earned.

ACCRUAL BASIS OF ACCOUNTING

The Enterprise Fund revenues and expenses are recorded on the actual basis whereby revenues are recognized in the period in which they are earned and become measurable, and expenses are recognized in the period incurred. Unbilled accounts receivable for services are not material and have not been accrued in the Enterprise Fund.

1. The city will establish and maintain a high standard of accounting practices.
2. The budget is based on generally accepted accounting principles for local governments. The General Fund follows the modified accrual method. The Enterprise Fund follows the accrual method.
3. Regular monthly and annual financial reports will present a summary of financial activity by major types of funds.
4. Where possible, the reporting system also will provide monthly information on the total cost of specific services by type of expenditure and by fund.

CAPITAL BUDGET POLICIES

The following capital budget policies have been adopted by the City of Seabrook.

Before an effective capital improvements program can be implemented, an organizational and policy framework must be established. First, a coordinating organization for the CIP process must be established. Next, the criteria for determining what expenditures are capital and what are operating must be set forth. Third, the length of time to be included in the capital programming period should be determined. Fourth, a calendar of key events to guide and give structure to this CIP process is specified. Finally, the annual financial policy guidelines which will govern the CIP process should be stated.

Article V, Section 5.03, Subsection 11 of the Seabrook City Charter requires that the annual budget shall include a partial program which may be revised and extended each year to indicate capital improvements pending or in process of construction or acquisition, and shall include the following items:

1. A summary of proposed programs.
2. A list of all capital improvements which are proposed to be undertaken during the five fiscal years next ensuing, with appropriate supporting information as to the necessity for such improvements.
3. Cost estimates, methods of financing and recommended time schedules for each such improvement.
4. The estimated annual cost of operating and maintaining the facilities to be constructed and acquired.

The classification of items as capital or operating will be determined by two criteria – cost and frequency. The minimum cost for items to be included in the capital improvement program will be \$5,000. Only major non-recurring items should be included in a capital program. Therefore, it is suggested that an interval of a least three years occur between such expenditures. It is recommended that the capital programming be set at six years. This will be the number of years beyond the current budget that our capital items will be scheduled. It is important to note that in order to maintain this five year lead time, it is necessary to annually extend the future program one additional year.

The capital budget is only as good as the plan for financing the proposed projects. The number of public improvements the City can finance generally depends on the level of recurring future operating expenditures, the level of debt, the legal limit of debt it may incur and any potential sources of additional revenue available for capital improvement financing. The financial tables in the statistical section of this budget provide much of the database for the operating and capital budget. The revenue and expenditure patterns in these tables are critical in forecasting future revenue and expenditure levels. The proposed capital budget which follows will include

projected revenues as well as expenditures. This will be necessary in order to make long-term funding and expenditure decisions.

There are a number of ways to finance capital improvement projects. It is recommended that a combination of the following methods be used in funding capital improvements: pay-as-you-go, bond issue, short-term notes, joint financing, lease/purchase, special assessments and federal and state aid.

Pay-as-you-go is a method of financing capital projects with current revenues, paying cash, instead of borrowing against future revenues. The amount available to spend is the difference between what is required for operating expenses and reserves. Pay-as-you-go works well where capital needs are steady and modest and financial capability is adequate. Pay-as-you-go has several advantages. First, it saves interest costs. Second, it protects borrowing capacity for unforeseen major outlays that are beyond any current year's capability. Third, when coupled with regular, steady completion of capital improvements, and good documentation, pay-as-you-go foster favorable bond ratings when long-term financing is undertaken. Finally, this method avoids the inconvenience and costs associated with marketing of bond issues. However, pay-as-you-go should be used only for modest capital improvements.

The use of bond issues is the major alternative to pay-as-you-go. Putting together bond issues for public sale is complicated and bond advisers should be used in preparing bond issues. The three types of bonds that should be considered are: general obligation tax bonds, special assessment bonds and utility revenue bonds. When the capital need is modest, but sufficient money is not available to pay-as-you-go then short-term notes or certificates of obligation should be used. With this method a substantial lump sum can be borrowed at the moment of the need and repaid in installments over the next few years. Consequently, the term of payment is shorter than that of a bond issue and there are substantial interest and agent fee savings.

Even though pay-as-you-go, bond issues, and short-term notes are usually the primary means of financing capital, joint financing of a project between the city and the county or the city and other cities should be considered when there is a benefit to both jurisdictions for joint development of a project. Under certain circumstances a lease/purchase arrangement is recommended when it is necessary to replace equipment before the end of its life expectancy. Public works that benefit certain properties more than others should be financed by special assessment.

Finally, a major source of funding is federal and state financial assistance. This type of funding arrangement should be explored. However, a project should not be undertaken just because funds are available. Grant programs may place additional constraints on the operating budget and should be considered only in cases where the project is a necessity or the operating costs are minimal.

The following is a list of recommended capital improvement budget policies:

1. The City will develop a multi-year plan for capital improvements and update it annually.

2. The City will make all capital improvements in accordance with an adopted capital improvement program.
3. The City will enact an annual capital budget based on the multi-year capital improvement plan. Future capital expenditures necessitated by changes in economic base will be calculated and included in capital budget projections.
4. The City will coordinate development of the capital improvement budget with development of the operating budget. Future operating costs associated with new capital improvements will be projected and included in the operating forecasts.
5. The City will use intergovernmental assistance to finance only those capital improvements which are consistent with the capital improvement plan and City priorities, and whose operating and maintenance costs have been included in operating budget forecasts.
6. The City will maintain all of its assets at a level adequate to protect the City's capital investment and to minimize future maintenance and replacement costs.
7. The City will project its equipment replacement and maintenance needs for the next several years and will update this projection each year. From this projection, a maintenance and replacement schedule will be developed and followed.
8. The City will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to City Council for approval.
9. The City will determine the least costly financial method for all new projects.

The following is a list of recommended debt policies:

1. The City will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues.
2. When the City finances capital projects by issuing bonds, it will pay back the bonds within a period not to exceed the expected useful life of the project.
3. The City will try to keep the average maturity of general obligation bonds at or below twenty-five years.
4. On all debt-financed projects, the City will make a down payment of a least 5% of total project costs from current revenues.
