BUDGET MESSAGE

Proposed Budget Fiscal Year 2025-26

To: Honorable Mayor, City Council Members, and Residents of Seabrook
From: Gayle Cook, City Manager
Date: July 22, 2025
Subject: Proposed Fiscal Year 2026 and Capital Improvement Program

It is my honor to present the Proposed Fiscal Year 2026 Budget and Capital Improvement Plan (CIP). In accordance with the Texas Local Government Code and Section 5.03 of the City Charter, I respectfully submit this balanced budget for Fiscal Year 2025–2026 (FY 2026).

At this stage, the budget is based on the Preliminary Tax Roll, which includes estimated property values for the upcoming tax year. Once the Certified Tax Roll is received, it will provide the final property values used to calculate the tax rate, which the City Council may then adopt.

Each year, the City of Seabrook’s budget process serves as a framework to strategically allocate resources, support core services, and advance long-term priorities. For FY 2026, this budget has been developed with a focus on our five Strategic Priorities—reflecting our vision, mission, and commitment to the community. It emphasizes strong fiscal stewardship while ensuring the delivery of essential services and continued progress on capital projects.

This budget not only supports the needs of our community but also underscores our commitment to the dedicated team of individuals who keep our city running—24 hours a day, 365 days a year. It reflects a unified effort that the Seabrook City Council, residents, and visitors can all be proud of.

REVENUE PROJECTIONS

Ad Valorem

General Fund property tax revenues are projected to remain flat, with a slight overall decrease of 0.5% from the prior year. This decrease is due to lower expectations for delinquent tax collections, partially offset by a modest increase in interest income. The No New Revenue Tax Rate represents the rate required to generate the same property tax revenue as the previous year. The assessed value of all property within the city limits is currently estimated to exceed \$2 billion, before exemptions.

Sales Tax

Sales tax revenue has slowed, reflecting a broader trend of reduced consumer spending both locally and nationally. The projected sales tax revenue for the upcoming fiscal year reflects a 4.62% decrease, aligning the budget with actual trends. While this conservative projection is recommended, recent year-over-year deposit comparisons indicate a possible upward trend, which will continue to be monitored leading up to final budget adoption.

Stabilization Fund \$800,000.00 (Special Fund)

The Stabilization Fund was originally established with \$800,000 prior to the SH 146 expansion project to offset potential declines in sales tax or property values related to the construction. In FY2025, a transfer of \$145,253 was used for one-time expenses, including: IT hardware upgrades, New parks equipment (mowers), continued support of the decorative street sign match program.

In July 2025, the EMS Expansion Building Project was presented to City Council. The total cost—including the base bid and alternates for Fire Station upgrades—was approved. It was noted that the Stabilization Fund could be transferred to the Capital Projects Fund

(Fund 28) to cover the resulting deficit. The project includes a \$200,000 contingency, and any unused funds after completion will remain in Fund 28 for future capital projects.

Port Houston – Committed Reserve \$1,600,000.00 (General Fund Reserves)

In the early 2000s, the City of Seabrook and Port Houston entered into a settlement agreement regarding the construction of a sound wall near SH 146 and Red Bluff to reduce noise from the Port Rail Spur. The Port elected to pay the City \$1,600,000 in lieu of constructing the wall.

By 2025, the Port Spur project was completed, and Quiet Zone equipment was installed. The City is currently the official applicant for the Quiet Zone designation, which is in the testing and application phase. The spur line is expected to be fully operational by August 2025, connecting to two new warehouse complexes behind the berm.

In 2024, City Council approved a pre-construction ambient noise study as part of a two-phase process. The second phase, a post-rail activation sound study, will help determine the appropriate design and scope of a future sound wall. Related sound study expenses are covered by this committed reserve.

Industrial District Agreement (IDA) Payments

The city has three (3) industrial district agreements that are formulated annual payments for a fixed value and calculated on the adopted city property tax rate. The payment this year should remain flat as with the decrease of property values the numerical rate of the tax rate will increase.

IDA 1 – Port of Houston. In 2025, a third amendment was made to the Settlement Agreement between the City of Seabrook and the Port. This amendment included Annual Payments beginning in the year 2026, with a lump sum of \$700,000.00 and overall totaling \$1,645,000.00 over fifteen years. The first payment is \$38,500.00 in 2026.

IDA 2 – Baystar. In 2019, an agreement was approved and property desannexed for Payment in Lieu of Taxes (PILOT) with a base assessment of \$25,000,000.00. For FY 2026, the city will receive its eighth payment of fifteen. This fiscal year's payment is estimated to be \$110,000.00.

IDA 3 – Ineos. In 2020, an agreement was approved and property disannexed for Payment in Lieu of Taxes (PILOT) with a base assessment of \$2,000,000.00. For FY 2026, the city will receive its seventh payment of fifteen. This fiscal year payment is estimated to be \$8,000.00.

Fines and Forfeitures

A revenue source that is composed of DOT Fines, OMNI Fees, Court Receipts, and Municipal Court Time Payment Fee. The proposed revenue sources remain predominately flat except for Court Receipts that is reflects a 19.23% increase.

License and Permits

This revenue source mainly is driven by the building permits for larger commercial developments. Last year, anticipated projects such as The Edge at Seabrook Towne Center did not start and accounted for the majority of projected fees. In FY 2025, a number of new home starts and a few smaller commercial redevelopments have leveled the forecast to come just under \$500,000.00. Moving into FY 2026, the proposed budget for this category remains flat.

PROPERTY TAX RATE

The Finance Department is in receipt of the Preliminary Harris County Tax Rolls and can only project a property tax rate at an anticipated No New Tax Rate (NNTR). The County has a deadline of July 25th for the Chief Appraiser to certify the appraisal role to each taxing unit. Traditionally, the City of Seabrook does not receive the **Certified Roll** by July 25th each year, rather it is usually July 29-30th each year. The budget calendar by staff expects the delay and plans close to the end of July to accommodate; however, to meet the 60-day requirement per the Seabrook City Charter, the turnaround is condensed.

GENERAL FUND (GF)

The city’s top priority is to preserve and enhance the high quality of life Seabrook residents have come to expect. The cost of providing and maintaining services to the residents increases each year. With the recent tariff increases, many of the departments are finding that orders are increasing and timing delays are being incurred. The General Fund services are people oriented and personnel costs comprise 71.4% of the total operating budget.

Compensation and Personnel

The city’s Compensation Program is based on maintaining compensation at least of 50th percentile of market of ‘Benchmark Cities’. Every five years a formal Salary Study is done by a third party consultant independently to review Seabrook employee job descriptions, titles, duties and analyze against an approved benchmark list of cities approved by City Council. All subsequent years, the results of the study that produce an updated and equitable pay matrix is maintained annually by updating pay tables of benchmark cities and producing an annual survey to keep salaries as close to the 50th percentile as possible.

Step Pay Plan

The city conducted a Compensation and Classification Study in 2022 that was implemented in fiscal year 2023 with an overall investment of \$347,700. The new Step Plans are included within the proposed balanced budget and equate to 2.5% for civilian employees and 3.0% for civil service employees on their anniversary date.

Cost of Living Adjustment (COLA) Civilian

A Cost-of-Living adjustment proposition is annually reviewed during the budget process along with the Consumer Price Index (CPI) to determine the rate of inflation. As of July’s index, a proposed 1.5% COLA is proposed for Civilian employees.

Cost of Living Adjustment (COLA) Civil Service – Police Officer Grade

A Cost of Living adjustment proposition for the Civil Service Employees – Police Officer Grade is proposed at 3%. The Public Safety Departments are the largest and most competitive area for each city including Seabrook. Every year this is a

moving target to keep up with the growing competition to recruit and retain the highest quality individuals for such a critical role.

By raising 3%, the Police Officer Grade will be as follow for starting compensation:

<u>Agency</u>	<u>FY 2025 Current</u>	<u>FY 2026 Projected 3% COLA</u>
Seabrook Police Officer	\$64,357	\$66,289
Benchmark Cities 50 th Percentile	\$69,981	\$72,080

Benefits

Medical, Dental, Vision, Life and AD&D, and EAP

For the benefit plan year August 1, 2025, through July 31, 2026, the city’s medical, dental and employee assistance programs were not required to be bid.

The medical plan offerings were changed to remove the Buy-Up Plan and only offer the Core Plan and HSA Plan. With the change, the city contribution percentage was able to be modified from 60% for dependent coverage to 68% for dependent coverage. This change allowed the City of Seabrook to come into market average with the region for this benefit.

- Medical 14.4% \$183,200.00 (all funds)
- Dental 5.1% \$3,700.00
- Vision - Price Guaranteed
- Life & Disability – No Increase
- FSA, Legal, EAP - No Increase

HOTEL OCCUPANCY TAX FUND (HOT)

The Hotel Occupancy Tax Fund is continuing an upward trend and the proposed budget is recommending to adjust 10.2% increase in projected revenues. The overall fund remains healthy, and the projected applications for grants were presented by an Advisory Board on July 15, 2025 for the FY 2026, for a total of \$179,500 on the events line item of 150-5466.

The fund has a total 2.0 full-time equivalents (FTEs) budgeted. The Events and Tourism Specialist was added in FY2023. The Multimedia Producer is .5 FTE, and the Director of Public Affairs is .5 FTE.

ENTERPRISE FUND (EF)

The proposed proprietary funds (utilities) within the Enterprise Fund are Utility Billing, Water, Sewer and Sanitation. The Water and Sewer rate schedule from the Seabrook 2019-20 Utility Rate

Study that was approved on June 30, 2020, by City Council has been followed; however, each year a recalculation of the costs that go into the rate formula are run and updated. At the beginning of FY 2023, the City of Pasadena, the entity the city contracts with for water service, issued an increase based on capital expenditures at the water plant. To date, no other rate increase notifications have been received.

FY 2026 will mark the five year conclusion of the past Utility Rate Study, and \$100,000.00 is budgeted for a new study in line item 20-902-5227.

Water

0% Increase to Base Water Rate
0% Increase to Volumetric Water Rate

Wastewater

0% Increase to Base Wastewater Rate
0% Increase to Volumetric Wastewater Rate

CAPITAL IMPROVEMENT PROGRAM (CIP)

Bond Program 2023 \$4,303,000.00

The City of Seabrook had a successful proposition for some of the projects presented to the electorate in November 2023. The projects that gained community support were 1) Fire Training Tower \$500,000.00; 2) EMS/EOC Expansion onto the Fire Station \$2,400,000.00; 3) Fire Truck \$1,403,000

Certificates of Obligation 2023 \$10,000,000.00

Approval and issuance of C.O.s were finalized early 2024, for debt servicing on several street projects throughout the community. Public Works identified and presented to the City Council the new artificial technology (AI) software that enables two layers of analysis of all the city owned infrastructure to allow for better current and future road asset management. A Pavement Management Program has been developed to maintain an assessment annually on each road by making at least one pass throughout the city. The City's Capital Improvement Program (CIP) will then include any project in the current or proceeding five (5) year lookout. This first project on this debt will be North Meyer reconstruction. Harris County Precinct 2 has notified the city for award of design and engineering. This project kicked off in FY2025 into design. *Delays were encountered with legislative proposals to divert funding.

The FY 2025 proposed budget continues identifying more funding options for high priority capital projects. Fund 28 was created in FY 2018 for the establishment of funding capital improvements, equipment, facilities or any other project within the CIP. The fund is a comprehensive fund allowing for monies to be accepted from the General Fund, Enterprise Fund, Grants or Special

Funds. Within Fund 28, the city deposits revenues such as the Waste Management Franchise for road maintenance. Through CIP, the projects are shown with the appropriate funding source.

Proposed Projects Include:

WW19 – Main Street Treatment Plant Demolish	Fund 29
D1 – Outfall Replacement – Phase 1	Fund 36
S26 – East Meyer Reconstruction	Certificates of Obligation
S27 – North Meyer Reconstruction	Certificates of Obligation/ Harris County Grant

P35 – Hester Park Pedestrian Bridge	Port Fund
P41 – Friendship Park Shade Structure	Port Fund
P44 – Hester Parking Lot Improvement	Port Fund
P45 – Robinson Parking Lot	Port Fund

In closing, I would like to acknowledge the teamwork, commitment, and assistance of all our leadership staff. This PROPOSED budget is presented balanced but is created to allow for additional input with discussion and input from Budget Workshop Session #2.

As the city awaits the certified rolls, which in a small city the size of Seabrook can swing revenues sizably, the proposed presentation does not calculate a tax rate for the main discussion point but is built conservative and may allow for additional funding items if additional property tax payments come in higher and the new values for the roll are higher than expected.

Thank You,

Gayle Cook

INTRODUCTION

Strategic planning gives Seabrook a clear way to look ahead and act now. While taking direction from business owners and residents, City Council and staff met throughout the year to talk about our future and agree on actions for the next fiscal year. The result is this 2025-2026 Strategic Plan.

The plan serves two purposes:

1.

GUIDE

It sets priorities, timelines, and yardsticks so everyone can see where we are headed.

2.

PROMISE

It shows how tax dollars will be used wisely and how progress will be reported.

The plan will be reviewed each year and updated as needed, keeping Seabrook safe, strong, and welcoming for all.

WHAT IS STRATEGIC PLANNING?

Highly effective organizations regularly engage in the strategic planning process to define the long-term vision for the future and to create short-term action plans in pursuit of that vision. Strategic plans consider current opportunities and challenges and help prioritize resources. The Seabrook City Council and staff have engaged in the strategic planning process this year and have drafted a strategic plan that establishes areas of emphasis, initiatives, and goals to commence within the next year. Once implemented, this plan is designed to move the City of Seabrook toward its future by giving guidance to staff, setting internal and external expectations, and creating measurements of success.

WHAT IS A VISION?

A vision statement is a collective aspiration of what we desire to be. It describes why we do what we do and serves as inspiration and motivation to become a greater version of ourselves.

WHAT ARE VALUES?

These are the guiding principles of how the City of Seabrook performs the work that serves its citizens. They shape the organizational culture and thus our actions.

PROPOSED 2025-2026 STRATEGIC PLAN

This plan is organized with Areas of Emphasis, Initiatives, and Goals. Areas of Emphasis represent the key priorities that will ensure pursuit of the future. Each Area of Emphasis has Initiatives that prescribe particular strategies, and each Initiative has Goals which describe steps to be taken to advance the Initiatives. (Numbers are for organizational purposes and do not assign priority or order.)

History of Seabrook

Seabrook, Texas: the name alone beckons visitors. Seabrook is a small town on the Texas coast just 30 minutes south of downtown Houston. Residents and visitors alike treasure this vibrant community for its resort-style experiences along Clear Lake and Galveston Bay.

Over 14,000 people call Seabrook home, and why not? Seabrook's relaxed lifestyle, business-friendly climate and affordable waterfront property make it one of the country's most attractive areas to live, work and visit.

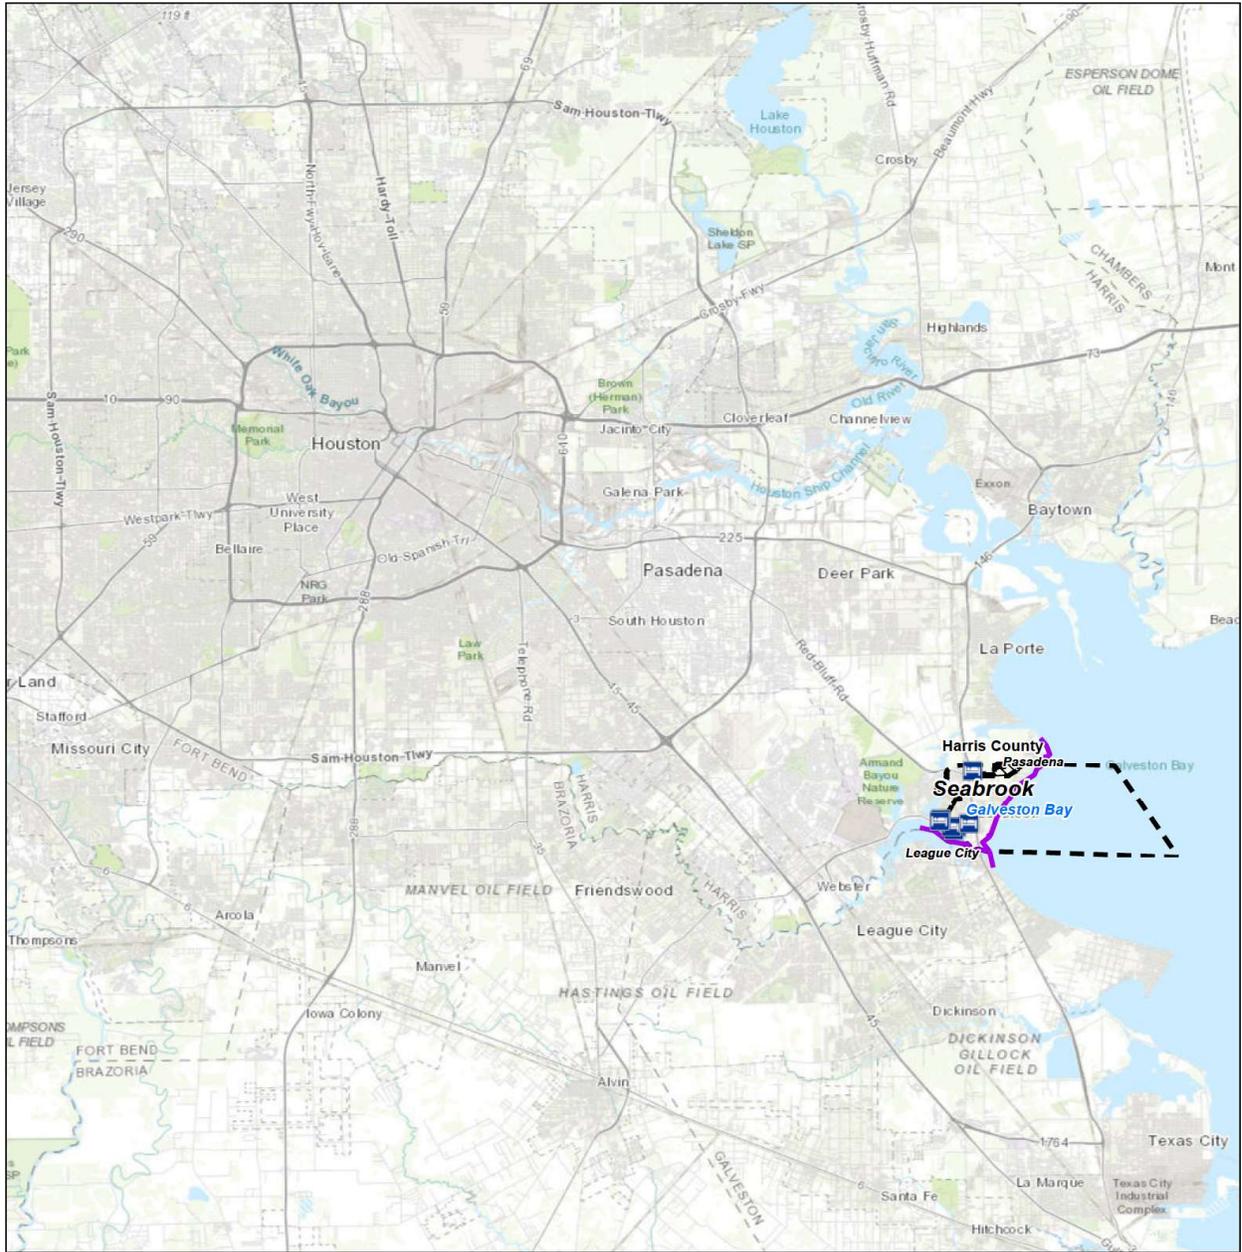

While Seabrook recently celebrated their 50th anniversary in 2011, historic records date back to 1832 when Ritson Morris, a native Virginian, obtained a league of land from the Mexican government. A portion of the land was purchased by Seabrook W. Sydnor in 1895 and a plat was filed with the Harris County Courthouse the following year.

In March 1903, the Seabrook Company of Houston filed a revised layout of the proposed Seabrook town site, which appealed to local farmers, fishermen and merchants. Some years later, in 1961, local leaders had the city incorporated.

In 1964, not long after the city became incorporated, a bridge was built between Kemah and Seabrook plus State Highway 146 was established as a four-lane highway. The bridge and highway allowed easy access to Seabrook along Galveston Bay and the small town began to grow considerably.

Quality of life in Seabrook is enriched by its coastal location. The Galveston Bay has a mixture of recreational and commercial resources that brings visitors from across the nation. Locals say visitors must taste the fresh seafood Seabrook has to offer; popular fish markets can be found throughout the city.

Overview of the Budget Process

The City of Seabrook's budget process is a multi-step procedure which transforms taxpayer requests and resources into government services and expenditures. The City of Seabrook is committed to align community goals, performance measures and council priorities to the City's budget. The following is the budget process for the City.

Definition and Authority

The budget document is a financial plan that aligns all revenues and expenditures with the services provided to Seabrook residents, based on established budgetary policies and procedures. The budget and accounting year are established in Section 5.01 of the City Charter which establishes the fiscal year will begin the first day of October and end the last day of September. The City Charter also requires the City Manager submit a proposed balanced budget to City Council at least sixty (60) days prior to the end of the fiscal year. The budget shall provide a complete financial plan of all City funds and activities for the current fiscal year and ensuing five (5) fiscal years. Additional information that shall be included in the budget, but not limited to is as follows:

- A budget message explaining the budget both in fiscal terms and in terms of the work programs, the proposed financial policies, describe the important features of the budget and indicate any major changes in revenue and expenses.
- Statement with estimated revenues and proposed expenditures for the proposed budget and ensuing five (5) years
- Tax levies, rates and collections for the preceding three (3) years.

Budget Preparation Process

The City Manager, Finance Department and Department Directors analyzed data and prepared the Fiscal Year 2025-2026 budget. The annual process began in March with the Finance department analyzing financial estimates and historic data to work on upcoming projections. Additionally Staff held the first strategic planning meeting for the year. Budget kick-off was held in April. The City's budget team consists of the City Manager, Department Directors, Finance Director and key members of the Finance Department. During the kickoff meeting the Finance Director distributed the budget and goal sheets to the Department Directors and held an overview of the budget process including expectations and explanation of revenue projections. The Finance Department works with the Directors to facilitate the completion of the department budgets.

All Department Directors submit the detailed budget sheets and decision packages to the finance department. Once the budget sheets and decision packages are reviewed by the finance department the budget and supporting documents are submitted to the City Manager. Department directors meet with the City Manager to go over their budgets. The Finance Director implements any changes that result from the City Manager and Directors meetings. The Finance Department works on revenue projections, reviews the budget and submits the Proposed Budget to City Council to meet the City Charters sixty day required deadline, sometime in late July.

Once the Proposed Budget has been submitted to City Council a series of budget workshops are conducted to allow Council to have additional input and change to the budget. During this period the finance department receives and estimated appraisal tax roll from Harris County Appraisal District. Property tax is the largest revenue source for the General Fund operating budget. Estimating these revenues can have a huge impact on the level of service the City can provide the citizens. Once the finance department has the estimated tax roll, revenue estimates are recalculated and the budget document is reviewed and public notices are prepared.

City Charter Article 5 Section 5(b) states Council shall post in the City Hall and publish in the official newspaper a general summary of their proposed budget and a notice stating:

- 1) The times and places where copies of the message and budget are available for inspection by the public, and
- 2) The time and place, not less than two (2) weeks after such publication, for a public hearing on the budget.

After the public hearing the budget shall be finally adopted by ordinance by one reading not later than the twenty seventh (27) of the last month of the fiscal year.

Budgetary Control

Monthly financial reports are delivered to City Council to ensure budgetary control. The monthly performance report highlights monthly revenue and expenditures, percentages and year-to-date totals to show any variances in the appropriated funds. The monthly reports are distributed to City Council, Economic Development Board, the City Manager and the Department Directors. The City Manager is authorized to approve line item transfers within a department, however, if the overall department expenditures is increased the budget amendment must be approved by City Council.

WHEREAS, Section 26.05 (b) of the Tax Code additionally requires that a motion to adopt an ordinance setting a tax rate that exceeds the no-new-revenue tax rate must be made in the following form:

“I move that the property tax rate be set with the adoption of a tax rate of \$ **0.464152**”; and

WHEREAS, the City Council of the City of Seabrook finds that the tax for the year **2025** hereinafter levied for current expenses of the city and the general improvement of the city and its property is in all respects necessary and must be levied to provide the revenue requirements of its budget for the ensuing year; and

WHEREAS, Section 26.05 (b) of the Tax Code further requires that if the ordinance sets a tax rate that, if applied to the total taxable value, will impose an amount of taxes to fund maintenance and operation expenditures of the taxing unit that exceeds the amount of taxes imposed for that purpose in the preceding year, the taxing unit must include in the ordinance in type larger than the type used in any other portion of the ordinance the following statement:

"THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE"; and

This year’s proposed tax rate does not exceed the no-new-revenue tax rate.

WHEREAS the City Council of the City of Seabrook further finds that the taxes for the year **2025**, hereinafter levied, are necessary to pay interest and to provide the

required sinking fund on outstanding bonds of the city issued for municipal purposes; now, therefore,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SEABROOK, STATE OF TEXAS:

SECTION 1. For the current expenses for maintenance and operation of the City of Seabrook and for the general improvement of the city and its properties, there is hereby levied and ordered to be assessed and collected for the year **2025** and for each year thereafter until it be otherwise provided and ordered, an ad valorem tax at the rate of **33.8026** cents on each one hundred dollars (\$100.00) assessed valuation on all property situated within the limits of the City of Seabrook, which property is not exempt from taxation under valid laws.

THIS TAX RATE WILL RAISE MORE TAXES FOR MAINTENANCE AND OPERATIONS THAN LAST YEAR'S TAX RATE.

SECTION 2. For the purpose of paying debt service interest and providing for a sinking fund for the payment of each issue of waterworks system, sewer system and general obligation bonds, including payment of the various installments of principal which may be payable during the ensuing year of such bonds, there is hereby levied and ordered to be assessed and collected for **2025** and for each year thereafter until it be otherwise provided and ordered, an ad valorem tax at the rate of **12.6126** cents on each hundred dollars (\$100.00) assessed valuation on all property situated within the limits of the City of Seabrook, which property is not exempt from taxation under valid laws.

SECTION 3. The total ad valorem tax rate in the City of Seabrook to be assessed and collected for **2025** and for each year thereafter until it be otherwise provided and ordered is **46.4152** cents on each hundred dollars (\$100.00) assessed valuation on all property situated within the limits of the City of Seabrook, which property is not exempt from taxation under valid laws.

SECTION 4. All taxes levied hereby are payable on or before December 31, **2025**. Taxpayers who have not paid their tax bill levied hereunder on or before the 31st day January, **2026** shall be assessed a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent plus one percent (1%) for each additional month or portion of a month the tax remains unpaid prior to July 1st of the year becomes delinquent. A tax delinquent on July 1st incurs a total penalty of twelve percent (12%) of the amount of delinquent tax without regard to the number of months the tax has been delinquent. A delinquent tax accrues interest at the rate of one percent (1%) for each month the tax remains unpaid.

SECTION 5. The term "assessed valuation" as used herein, shall mean a valuation which is one hundred percent (100%) on the actual value of any and all property subject to

ad valorem tax. The tax levied by this ordinance shall be calculated upon said “assessed valuation” in relation to the rates above set forth.

SECTION 6. Should any part of this ordinance be held invalid by a court of competent jurisdiction, the remaining parts shall be severable and shall continue to be in full force and effect.

SECTION 7. That the record vote of the City Council adopting this ordinance is:

AND IT IS SO ORDERED

ATTEST:

Rachel Lewis
City Secretary

City of Seabrook Investment Policy

1. **POLICY**

It is the policy of the City of Seabrook (the “City”) to invest public funds in a manner which will preserve the principal and maintain liquidity through limitations and diversification seeking the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statutes governing the investment of public funds.

2. **PURPOSE**

The purpose of this investment policy is to comply with all the statutes governing the investment of the City’s funds and Chapter 2256 of the Government Code (“Public Funds Investment Act”) which requires the City to adopt a written investment policy regarding the investment of its funds and funds under its control. The policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the City’s funds.

3. **SCOPE**

This investment policy applies to all financial assets of the City of Seabrook. These funds are accounted for in the City of Seabrook’s Comprehensive Annual Financial Report and include:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Enterprise Funds
- Debt Service Fund
- Any new fund created by the City, unless specifically exempted from this Policy by the City Council or by law.

The City may consolidate cash balances from various funds to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

4. **INVESTMENT STRATEGY BY FUND TYPE**

- **Operating Funds:** Operating funds will have as their primary objective to assure that anticipated daily cash requirements are matched with adequate investment liquidity. The secondary objective is to create a portfolio that will minimize volatility during changing economic cycles. There should also be a marketability of the investment if the need arises to liquidate the investment before maturity.
- **Debt Service Funds:** Investment strategies for debt service funds shall have as their primary objective the assurance of investment liquidity adequate to cover the debt service obligation on the required payment date. Securities purchased shall not have a stated final maturity which exceeds the debt service payment date or funds shall be maintained in an investment pool to be available for debt service payments.
- **Capital Project and Special Purpose Funds:** These funds will have as their primary objective to assure that anticipated cash outflows are matched with adequate investment liquidity. These portfolios should have liquid securities to allow for unanticipated project expenditures or accelerated project outlays due to a better than expected or changed

construction schedule. The stated final maturity dates of securities held should not exceed the estimated project completion date.

5. **PRUDENCE**

Investments shall be made with judgment and care-under circumstances then prevailing-which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable income to be derived.

- The standard of prudence to be used by investment officials shall be the “Prudent person” standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security’s credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.
- The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific investment’s credit risk or market price changes, provided that these deviations are reported immediately and the appropriate action is taken to control adverse developments.

6. **OBJECTIVE**

The primary objectives, in priority order of the City of Seabrook’s investment activities shall be:

- **Safety:** Safety of principal is the foremost objective of the investment program. Investments of the City of Seabrook shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.
- **Liquidity:** The City of Seabrook’s investment portfolio will remain sufficiently liquid to enable the City of Seabrook to meet all operating requirements which might be reasonably anticipated.
- **Public Trust:** All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment Officials shall avoid any transaction that might impair public confidence in the City’s ability to govern effectively. The governing body recognizes that in a diversified portfolio, occasional measured losses due to market volatility are inevitable, and must be considered within the context of the overall portfolio’s investment return, provided that adequate diversification has been implemented.
- **Return of Investment:** The City of Seabrook’s investment portfolio shall be designed with the objective of attaining a rate of return throughout the budgetary and economic cycles, commensurate with the City of Seabrook’s investment risk constraints and the cash flow characteristics of the portfolio.

7. **DELEGATION OF AUTHORITY**

Authority to manage the City of Seabrook’s investment program is derived from the following: Ordinances, Resolutions and other acts of Council. Management responsibility for the investment

program is hereby delegated to the Investment Officer, who shall establish written procedures for the operation of the investment program consistent with this policy.

8. TRAINING

Investment Officers shall attend at least one investment training session within 12 months after taking office or assuming duties, and shall attend an investment training session not less than once in a two-year period and receive not less than 8 hours of instruction relating to investment responsibilities from an independent source to insure the quality and capability of investment management in compliance with Public Funds Investment Act. For the purposes of this policy, an "independent source" is defined as a professional organization, an institute of higher learning or any other sponsor other than a Business Organization with whom the City may engage in investment transactions. Independent sources that may provide investment training include the Government Treasurer's Organization of Texas, the University of North Texas, the Government Finance Officers Association of Texas, or the Texas Municipal League. Training shall be in accordance with the Public Funds Investment Act and shall include education in investment controls, security risks, market risks, and compliance with statutes governing the investment of public funds. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Investment Officer. The Investment Officer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials. The Finance Director is the designated Investment Officer.

9. ETHICS AND CONFLICTS OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Council any material financial interests in financial institutions that conduct business within this jurisdiction, and they shall further disclose any large personal financial or investment positions that could be related to the performance of the City of Seabrook, particularly with regard to the time of purchases and sales.

10. AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS

The Finance Officer will maintain a list of financial institutions authorized to provide investment services. In addition, a list will also be maintained of approved security broker/dealers selected by credit worthiness who are authorized by the State of Texas. They may include "primary" dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (uniform net capital rule). No public deposit shall be made except in a qualified public depository as established by state laws.

11. AUTHORIZED AND SUITABLE INVESTMENTS

The City of Seabrook is empowered by statute to invest in the following types of securities:

13. MONITORING

Monitoring shall be conducted quarterly when investment reports are compiled to ensure investments are in compliance with credit rating requirements according to PFIA and the liquidation of such investments if the minimum rating during this period is not satisfied.

Affected obligations under “Authorized and Suitable Investments” in this policy and their minimum rating requirements are:

- **Investment Pools:** Rated not less than AAA or an equivalent rating by at least one nationally recognized rating service.

14. COLLATERALIZATION

Collateralization will be required on three types of investments: certificates of deposit, other approved savings instruments at an FDIC insured bank and repurchase (and reverse) agreements. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest.

The City of Seabrook chooses to limit collateral to the following:

16. DIVERSIFICATION

The City of Seabrook will diversify its investments by security type and institution. With the exception of U.S. Treasury securities and authorized pools, no more than 50% of the City's total investment portfolio will be invested in a single security type or with a single financial institution. The City may invest up to 100% of its investment portfolio in U.S. Treasury securities, CD's and authorized investment pools.

17. MAXIMUM MATURITIES

To the extent possible, the City of Seabrook will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in securities maturing more than two (2) years from the date of purchase. However, the City may collateralize its repurchase agreements using longer dated investments not to exceed five (5) years to maturity.

Reserve funds may be invested in securities exceeding two (2) years if the maturity of such investments is made to coincide as nearly as practicable with the expected use of the funds.

18. INTERNAL CONTROL

The Finance Officer shall establish an annual process of independent review by an external auditor. This review will provide internal control by assuring compliance with policies and procedures. The controls shall be designed to prevent losses of public funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees or Investment Officers of the City. POLICIES AND PROCEDURES

The following budget policies and procedures have been adopted by the City of Seabrook.

OPERATING BUDGET POLICIES

1. The city will pay for all current expenditures with current revenues and available cash reserves. The city will avoid budgetary procedures which would result in current expenditures being paid at the expense of future years, such as postponing expenditures, accruing future years' revenues, or rolling over short-term debt.
2. The budget will provide for adequate maintenance of capital plant and equipment and for their orderly replacement.
3. The city will maintain a budgetary control system to assure adherence to the budget.
4. The City Manager will prepare monthly reports comparing actual revenues and expenditures to budgeted amounts.
5. Each year, the city will update expenditure projections for the next five years. Projections will include estimated operating costs of future capital improvements that are included in the capital budget.

REVENUE POLICIES

1. The city will maintain a diversified and stable revenue system to shelter it from short-run fluctuations in a single revenue source.
2. The city will estimate its annual revenues by an objective, analytical process.
3. The city will project revenues for the next five years and will update this projection annually. Each existing and potential revenue source will be reexamined annually.
4. The city will follow an aggressive policy of collecting property tax revenues. The annual level of uncollected property taxes will generally not exceed 8 percent.
5. The city will establish all user charges and fees at a level related to the cost of providing the services.
6. Each year, the city will recalculate the full costs of activities supported by user fees to identify the impact of inflation and other cost increases.
7. The city will revise user fees annually to adjust for the effects of inflation.
8. The city will set fees and user charges for the Enterprise Fund such as water, sewer, or sanitation at a level that fully supports the total direct and indirect cost of the activity. Indirect cost includes annual depreciation of capital assets.
9. The city will set fees for other user activities, such as recreational services, at a level to support 50 percent of the direct and indirect cost of the activity.

RESERVE AND FUND BALANCE POLICIES

1. The city will maintain a fund balance of 25% of the current budget in the General Fund and 15% of the current budget in the Enterprise Fund.
2. The fund balances will provide for the following:
 - Temporary funding of unforeseen needs of an emergency or non-recurring nature as provided for in Charter Section 5.05 "Emergency Appropriations".
 - Permit orderly budgetary adjustments when revenues are lost through the action of other governmental bodies.
 - Provide a local match for public or private grants.
 - Meet unexpected small increases in service delivery costs.

3. The city will establish an equipment reserve fund and will appropriate funds to it annually to provide for timely replacement of equipment. The amount will be calculated annually in the capital budget.

ACCOUNTING, AUDITING AND FINANCIAL REPORTING POLICIES

MODIFIED ACCRUAL BASIS OF ACCOUNTING

The modified accrual basis of accounting is followed in the governmental fund types. Under this basis of accounting, revenues are recognized when they become susceptible to accrual, i.e. both measurable and available to finance expenditures of the current period. Available means then due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Expenditures generally are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payment to be made early in the following year.

The treatment of specific revenue and expenditure items is described below:

1. General property taxes receivable are recorded on the date levied and as revenue when they become available. Property taxes receivable have been recorded as deferred revenues at September 30th. Property taxes collected within 60 days subsequent to September 30th have not been recorded as the amount is not considered material.
2. Franchise taxes, sales taxes, licenses and permits, and fines are not susceptible to accrual since they are not measurable until received.
3. Federal and state grants are recorded when due. Revenues on cost-reimbursement grants are accrued when the related expenditures are incurred.
4. Interest is recorded when earned.

ACCRUAL BASIS OF ACCOUNTING

The Enterprise Fund revenues and expenses are recorded on the actual basis whereby revenues are recognized in the period in which they are earned and become measurable, and expenses are recognized in the period incurred. Unbilled accounts receivable for services are not material and have not been accrued in the Enterprise Fund.

1. The city will establish and maintain a high standard of accounting practices.
2. The budget is based on generally accepted accounting principles for local governments. The General Fund follows the modified accrual method. The Enterprise Fund follows the accrual method.
3. Regular monthly and annual financial reports will present a summary of financial activity by major types of funds.
4. Where possible, the reporting system also will provide monthly information on the total cost of specific services by type of expenditure and by fund.

CAPITAL BUDGET POLICIES

The following capital budget policies have been adopted by the City of Seabrook.

Before an effective capital improvements program can be implemented, an organizational and policy framework must be established. First, a coordinating organization for the CIP process must be established. Next, the criteria for determining what expenditures are capital and what are operating must be set forth. Third, the length of time to be included in the capital programming period should be determined. Fourth, a calendar of key events to guide and give structure to this CIP process is specified. Finally, the annual financial policy guidelines which will govern the CIP process should be stated.

Article V, Section 5.03, Subsection 11 of the Seabrook City Charter requires that the annual budget shall include a partial program which may be revised and extended each year to indicate capital improvements pending or in process of construction or acquisition, and shall include the following items:

1. A summary of proposed programs.
2. A list of all capital improvements which are proposed to be undertaken during the five fiscal years next ensuing, with appropriate supporting information as to the necessity for such improvements.
3. Cost estimates, methods of financing and recommended time schedules for each such improvement.
4. The estimated annual cost of operating and maintaining the facilities to be constructed and acquired.

The classification of items as capital or operating will be determined by two criteria – cost and frequency. The minimum cost for items to be included in the capital improvement program will be \$5,000. Only major non-recurring items should be included in a capital program. Therefore, it is suggested that an interval of a least three years occur between such expenditures. It is recommended that the capital programming be set at six years. This will be the number of years beyond the current budget that our capital items will be scheduled. It is important to note that in order to maintain this five year lead time, it is necessary to annually extend the future program one additional year.

The capital budget is only as good as the plan for financing the proposed projects. The number of public improvements the City can finance generally depends on the level of recurring future operating expenditures, the level of debt, the legal limit of debt it may incur and any potential sources of additional revenue available for capital improvement financing. The financial tables in the statistical section of this budget provide much of the database for the operating and capital budget. The revenue and expenditure patterns in these tables are critical in forecasting future revenue and expenditure levels. The proposed capital budget which follows will include

projected revenues as well as expenditures. This will be necessary in order to make long-term funding and expenditure decisions.

There are a number of ways to finance capital improvement projects. It is recommended that a combination of the following methods be used in funding capital improvements: pay-as-you-go, bond issue, short-term notes, joint financing, lease/purchase, special assessments and federal and state aid.

Pay-as-you-go is a method of financing capital projects with current revenues, paying cash, instead of borrowing against future revenues. The amount available to spend is the difference between what is required for operating expenses and reserves. Pay-as-you-go works well where capital needs are steady and modest and financial capability is adequate. Pay-as-you-go has several advantages. First, it saves interest costs. Second, it protects borrowing capacity for unforeseen major outlays that are beyond any current year's capability. Third, when coupled with regular, steady completion of capital improvements, and good documentation, pay-as-you-go foster favorable bond ratings when long-term financing is undertaken. Finally, this method avoids the inconvenience and costs associated with marketing of bond issues. However, pay-as-you-go should be used only for modest capital improvements.

The use of bond issues is the major alternative to pay-as-you-go. Putting together bond issues for public sale is complicated and bond advisers should be used in preparing bond issues. The three types of bonds that should be considered are: general obligation tax bonds, special assessment bonds and utility revenue bonds. When the capital need is modest, but sufficient money is not available to pay-as-you-go then short-term notes or certificates of obligation should be used. With this method a substantial lump sum can be borrowed at the moment of the need and repaid in installments over the next few years. Consequently, the term of payment is shorter than that of a bond issue and there are substantial interest and agent fee savings.

Even though pay-as-you-go, bond issues, and short-term notes are usually the primary means of financing capital, joint financing of a project between the city and the county or the city and other cities should be considered when there is a benefit to both jurisdictions for joint development of a project. Under certain circumstances a lease/purchase arrangement is recommended when it is necessary to replace equipment before the end of its life expectancy. Public works that benefit certain properties more than others should be financed by special assessment.

Finally, a major source of funding is federal and state financial assistance. This type of funding arrangement should be explored. However, a project should not be undertaken just because funds are available. Grant programs may place additional constraints on the operating budget and should be considered only in cases where the project is a necessity or the operating costs are minimal.

The following is a list of recommended capital improvement budget policies:

1. The City will develop a multi-year plan for capital improvements and update it annually.

2. The City will make all capital improvements in accordance with an adopted capital improvement program.
3. The City will enact an annual capital budget based on the multi-year capital improvement plan. Future capital expenditures necessitated by changes in economic base will be calculated and included in capital budget projections.
4. The City will coordinate development of the capital improvement budget with development of the operating budget. Future operating costs associated with new capital improvements will be projected and included in the operating forecasts.
5. The City will use intergovernmental assistance to finance only those capital improvements which are consistent with the capital improvement plan and City priorities, and whose operating and maintenance costs have been included in operating budget forecasts.
6. The City will maintain all of its assets at a level adequate to protect the City's capital investment and to minimize future maintenance and replacement costs.
7. The City will project its equipment replacement and maintenance needs for the next several years and will update this projection each year. From this projection, a maintenance and replacement schedule will be developed and followed.
8. The City will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to City Council for approval.
9. The City will determine the least costly financial method for all new projects.

The following is a list of recommended debt policies:

1. The City will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues.
2. When the City finances capital projects by issuing bonds, it will pay back the bonds within a period not to exceed the expected useful life of the project.
3. The City will try to keep the average maturity of general obligation bonds at or below twenty-five years.
4. On all debt-financed projects, the City will make a down payment of a least 5% of total project costs from current revenues.
