City of Seabrook Statements of Compliance for Clear Creek New 12" Pipeline Project

Under Ordinance 2014-13 of the City of Seabrook, titled Pipeline Regulations, INEOS Chocolate Bayou Pipeline LLC (INEOS) makes the following statements regarding the new pipeline project:

Section 62-5(10) INEOS' new pipeline project will comply with all applicable federal, state and local laws and regulations as well as Chapter 62 of the City of Seabrook's Code of Ordinances.

Section 62-5(11) INEOS will at any time in the future and upon written notice from the City of Seabrook, where the new pipeline crosses or is laid within, under or across any street, road or utility right-of-way, drainage way or public way existing or projected at the time the permit is issued, reposition the pipeline at INEOS' sole expense, when the city reasonably requires such action incidental to public construction or public improvement: construction, maintenance and improvement of streets, water lines, sanitary sewer lines, storm sewers, ditches and public utilities. INEOS shall make every reasonable effort to complete such repositioning within six months of receiving official notification from the City of Seabrook.

Section 62-5(12) INEOS shall notify the director at least 48 hours prior to performing any scheduled repairs or maintenance on the pipeline. For unscheduled emergency repairs or maintenance, taken to protect the public health, safety or welfare, the permittee shall notify the city police department dispatcher as soon as practical but no later than one hour after commencing repairs or maintenance.
